IFPEN

?**IFPEN's 2021 Activity Report has just been published. Focusing on ecological transition, it looks back on a year of commitments and key events for the energy transition.**

In 2021, IFPEN’s teams rose to the dual challenges posed by the economic and health crises - with Covid slowing the pace for the second year running - and conducted fundamental research and applied research to support the ecological transition. We hope you enjoy reading this report!
