Wind[•]
EUROPE **CONFERENCE
& EXHIBITION**
2019 2-4 APRIL
BILBAO

From 2 to 4 April, more than 7,000 participants and 300 speakers will gather in Bilbao for the [WindEurope Conference and Exhibition](#).

This is an opportunity for these players to present their global vision of the **development of wind energy in Europe** and their solutions, in a **European context of energy transition**.

IFPEN will present its [offer in terms of wind turbine control](#), including its real-time wind measurement system provided by LiDAR sensors.

Come and visit us Hall 1, stand D60.

Find more information about this event [here](#).
