

A leading energy transition player in its capacity as a research center and through its R&I and training missions, IFP Energies nouvelles is determined to set an example **in the field of corporate social responsibility (CSR)**.

Therefore all IFPEN's activities are conducted in accordance with the principles of sustainable development.

Its **proactive approach** is in line with the French law relating to the Energy Transition for Green Growth, the Exemplary Administration Plan and the Sustainable Development Goals (SDGs) contained in the 2030 Agenda for Sustainable Development.

It is **integrated into IFPEN's strategy** through its Objectives and Performance Contract and, since 2012, has been formalized in a **dedicated annual report** ([available in French](#)).
