Sustainable mobility | Electrified Mobility

15 - 16 June 2022

From 15 to 16 June 2022, IFPEN Transports Energie Carnot Institute has participated in the SIA Powertrain & Energy congress in Rouen (conferences and exhibition).

IFPEN Transports Energie Carnot Institute was present on its stand technological innovations and products meeting the future uses and needs of mobility such as:
- hydrogen mobility based on the fuel cell and the hydrogen-powered combustion engine
- Improving air quality in cars with an on-board, connected exhaust pollutant analyser

- electric motors, etc.
