Training and Careers

Do you wish to sharpen your skills in the energy transition?
Take advantage of IFP School's free online training modules: Energy Transition and Hydrogen for Mobility!

The first module lasts about 4 hours and will allow you to discover the challenges of the energy transition and explore the innovations of the sector for a decarbonized energy mix.

The second course, which lasts about 6 hours, will allow you to dive into the hydrogen technologies applied to heavy mobility.

These two series combine **videos** and **games**. In addition, the School offers you the opportunity to deepen the concepts covered during two **webinars** scheduled on **January 26, 2023** for the Energy Transition MOOC and on **March 14, 2023** for the the Hydrogen for Mobility MOOC.

> **Registration is now open!**
