20 - 22 March 2024

From March 20th to 22nd, 2024, over 12,000 participants and 500 speakers will gather in Bilbao, Spain, for the wind energy exhibition organized by WindEurope. This event provides a platform for stakeholders to present their comprehensive vision of wind energy development and its value chain, along with their solutions within the European context of energy transition.

IFPEN, represented by its [Carnot IFPEN Ressources Energétiques](#), will showcase its wind floater technology and present its expertise in wind assessment and exploitation through the development of specific tools: offshore wind turbine design, submarine cable engineering, wave forecasting, wind farm and turbine monitoring, and maintenance utilizing digital twins.

IFPEN will be joined by [GreenWITS](#), a new company specializing in providing advanced digital services and engineering for the wind energy sector.

Find us at booth 3-D110.
