Supporting SMEs in their R&D projects is one of IFPEN's missions: each year, we examine and process an average of 50 applications and sign 20 partnership contracts.

Our aim: to contribute to the development of the national industrial fabric with a view to creating value and jobs.

How? By accelerating innovation in order to reinforce the competitiveness of SMEs.

For whom? Any company, from start-up to intermediate-sized company, driving an innovative project, irrespective of sector.

We offer start-ups and SMEs two partnership formats adapted to their needs and the maturity of their projects.

Interested by IFPEN's support?
