

PUBLICATIONS

IFPEN is keen to promote scientific research and ensure its knowledge is disseminated to the widest possible audience. Since 2012, its publications have been available in [open archives](#). IFPEN leads the editorial committee of [OGST \(Oil & Gas Science and Technology\)](#), an open access journal, and, several times a year, publishes a scientific information letter aimed at a broad public, [Science@ifpen](#).

With a view to disseminating its knowledge, **IFPEN's researchers present numerous papers and posters at conferences and publish articles listed in the Science Citation Index, as well as unlisted non-specialized and scientific articles** (articles in field-specific journals, in general).

370 IFPEN publications in 2020, including more than 200 referenced by the WoS

Over the period 2016-2020, **IFPEN co-published papers with entities located in some 60 different countries.** More than 20% of its international joint publications are written with a European country. IFPEN primarily publishes with entities located in the USA, Germany and Canada.

Geographic breakdown of international joint publications (Web of Science) 2016 - 2020

IFPEN OPEN ARCHIVE

Since 2012, the [HAL-IFPEN](#) platform has provided open access to scientific papers published by IFPEN.

Most of these papers are available in full-text format, in their “post-print” version, unless otherwise indicated by the publishers. IFPEN’s aims are to:

- contribute to the development of open access to scientific and technical information,
- increase the dissemination of its research results.

More than **2,000** papers available in full-text format in HAL

OGST (OIL & GAS SCIENCE AND TECHNOLOGY) JOURNAL

IFPEN leads the editorial committee of the [peer-reviewed OGST journal](#). Indexed in the major international databases, it covers all the disciplines and fields of activity within the scope of IFPEN. It is aimed at engineers and researchers in disciplines and fields related to exploration, production, refining, petrochemicals, the use of oil, natural gas and other energy sources, particularly alternative energies and their respective economies within the context of the energy transition. It is available on an **open access basis**.

The **2020 impact factor was 1.708**.

Don’t hesitate to [submit](#) your new papers.

THE SCIENCE@IFPEN NEWSLETTER

Four times a year, IFPEN publishes a scientific newsletter, Science@ifpen. The objective is to highlight recently published R&D results.
