Wind Energy

WIND ENERGY

OUR STRENGTHS

- More than 12 years' experience in the field, with a team of around thirty FTE staff dedicated to wind energy, alongside 5 to 10 doctoral students and post-doctoral researchers.
- Active in several segments of the value chain, with packages aimed at wind energy development projects and technology developers.
- Marketed solutions, developed via a network of industrial partners ranging from SMEs to major groups.
- A capacity to implement precise numerical models to simulate wind turbine behavior. These numerical models are available via the **DeepLines Wind™** and **FarmShadow™** software tools.
- A capacity to rapidly integrate recent digital technology advances.
- Pooled expertise with GreenWits, a start-up created by IFPEN in 2023 to address the needs of wind energy operators.
