Climate, environment and circular economy | Life cycle analysis (LCA)

LIFE CYCLE ANALYSIS (LCA)
OUR STRENGTHS

- A dedicated team of Life Cycle Analysis engineers/PhD graduates with expertise covering the entire energy and transport value chain, supported by a team of young researchers working in partnership with specialist LCA laboratories (Elsa Montpellier, CIRAIG Canada, etc.).
- **Close ties with R&D teams** making it possible to integrate LCA expertise upstream of projects.
- Very close links with teams responsible for prospective research and TIMES software for systemic LCAs.
