

Climate, environment and circular economy

Metal recycling

METAL RECYCLING OUR STRENGTHS

- More than 15 years' experience in R&I on batteries (simulation/dimensioning), and laboratory-based development of next-generation batteries (Li-S, SSB)
- Utilization of our expertise, acquired at industrial level over more than 40 years on processes similar to CAM production.
- The development of R&D skills on closed-loop recycling solutions
- Industrial synergy with Axens and Eurecat

CONTACTS

Arnaud Baudot

Program manager "Recycling of battery metals"

arnaud.baudot@ifpen.fr

Magalie Roy-Auberger

Program manager "Recycling of catalyst metals"

magalie.roy@ifpen.fr

Jérôme Sabathier

Head Economics & Environmental Evaluation Department

jerome.sabathier@ifpen.fr
