

Climate, environment and circular economy | Plastics recycling

PLASTICS RECYCLING
OUR NETWORKS

Axelera competitiveness cluster

The chemical recycling of plastics is an important theme for the Axelera competitiveness cluster, of which IFPEN is a founding member.

Petcore Europe

Association, based in Brussels, representing the complete PET value chain in Europe

AC2R

The role of the Association alliance chimie recyclage (Chemical recycling alliance association) is to share a common vision and demonstrate a community of objectives, to represent and promote the recycling, among others, of high-tech materials, plastics, etc. within the shortest possible, most inclusive life cycles across the territory.
