IFPEN

At Axelera's general meeting, held on 27 September, Cécile Barrère-Tricca, Site Director of IFPEN-Lyon, was appointed Chairwoman of this cluster dedicated to the chemicals and eco-industries sectors. With a two-year term of office, Cécile Barrère-Tricca is keen to continue her commitment, believing that the chemical and environmental sectors can both be nurtured through innovation, and to affirm the cluster's regional presence in Auvergne-Rhône-Alpes while at the same time developing its activities on a national and international level.

Congratulations on this appointment, which will bolster the already strong ties between IFPEN and its member institutions, particularly in the Auvergne-Rhône-Alpes region.
